## Career Objectives

---

Looking at enhancing my academic credentials and move to Ass. Professor's by motivating and enhancing student knowledge and skills to help them in their career choices. To support the professional development of BUUIC in organizing seminars, debates and fund-raising activities by drawing upon my industry and academic links. It's also worthwhile to mention that my extensive top level industry experience across several industries along with our family business spread across regions, personal association and contacts with some past and present members of parliament, government officials, diplomats enable me to bring the real world straight inside my classes which gives me a cutting edge.

## Profile

---

Dr. Deb has top level industry experience spanning well over 2 decades across several segments such as shipping, packaging, pulp & paper, garments, hospitality and diamond industry. Besides his professional profile his teaching experience in Universities, as instructor, external examiner, internal guide for thesis, and reviewer for Scopus journals makes his profile highly sought after. A committed senior lecturer with over 15 years' experience in leading colleges and universities in India, & Thailand teaching business majoring students of diverse social and cultural background including both undergrads as well as PG students. Having consistently achieved bands of good to very good in student self-assessment across all subjects taught till date. Possessing excellent administrative, verbal, communication and written skills along with constructive and effective teaching methods that promote a stimulating environment. Aligning pedagogy, subject matter, assessment, and student access and success with appropriate technologies, software. Dr. Deb is also Trend-Focused Researcher: "Expert at spotting nascent industry shifts—such as AI integration or sustainable transitions—to formulate novel, peer-review-ready research questions.". Adaptability to teach multiple core courses across majors. He also assists with their family business spread across India, Thailand and Australia. Dr. Deb is based out of Thailand while his permanent home is in Perth, Australia.
